DETAILED ACTION

Election/Restrictions

1. The restriction requirement required by examiner and agreed to by applicant's agent, on September 11, 2003, has been withdrawn and accordingly all claims have been rejoined and will be examined together.

Allowable Subject Matter

2. Claims 1-21 are allowed.

3. The following is an examiner's statement of reasons for allowance: the instant application is deemed to be directed to nonobvious copolymerizable, thermally stable, blue anthraquinone colorant compounds. The anthraquinone compounds of formulas (I) and formula (II) are distinguished over the prior art. The prior art teaches blue anthraquinone colorants comprising hydroxy and other functionalized groups, such as amino, sulfonamides, and ethylenically unsaturated groups, however the prior art fails to teach blue anthraquinone colorants comprising the groups -O-L-O-X or -O-L-Q. And accordingly the prior art fails to teach copolymerizing the novel anthraquinone colorants with ethylenically unsaturated vinyl compounds or polyester for use in photopolymerizable coating compositions, moldings, extrusions, or x-ray films.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
